PROFILE

Frontend Developer with 1+ year of experience building modern web applications using React and Next.js, with hands-on exposure to full-stack development and backend integration. Skilled in transforming UI/UX designs into responsive, scalable interfaces with efficient API handling. Strong understanding of software engineering principles and the Software Development Life Cycle (SDLC). Completed internships and training programs focused on React, state management, and modern frontend practices. Looking forward to a Junior Frontend Developer or Software Engineer role.

EDUCATION

B.Sc. in Computer Science and Engineering

09/2021 – 01/2026

Faculty of Electronic Engineering, computer Science and Engineering Department

GPA: 3.7 – Ranked 5th (Excellent with Honors)

PROFESSIONAL EXPERIENCE

Frontend Intern (React & Next.js) – Huma Volve | 2025

- Built responsive UI components using React and Next.js ·
- Integrated REST APIs and dynamic data ·

React Trainee – DEPI Program (6 months, 2025)

Completed intensive React training focused on state management, and API integration.

Academic Project

Graduation Project – Healing Platform

Developed a well-being platform using Next.js and React with responsive UI and backend integration.

Self-Trained Project

E-Commerce Web Application

Built an online shopping platform using React / Next.js with product listing, cart, and favorites features.

UI/UX Trainee – NTI Program (2025)

Applied Figma designs to functional front-end interfaces through hands-on projects

COURSES

React Development

(DEPI, Creativa Hub Menofia)

Explored React components, state management, and hooks for building interactive user interfaces.

Advanced JavaScript

(DEPI)

ES6+, asynchronous programming, modern features.

Version Control with Git and GitHub

(DEPI)

Branching, merging, collaboration.

NTI UI/UX Program

Figma, design thinking, usability testing, case studies.

SKILLS

Technical Skills

Front-End:

- HTML5, CSS3, JavaScript (ES6+)
- React.js
- Next.js (App Router, Routing, SSR basics)
- REST API Integration (Fetch, Axios)
- State Management
- Tailwind CSS
- Performance & Code Optimization (Basics)

Strong problem-solving and algorithmic thinking :

participant in ECPC (Egyptian Collegiate Programming Contest)

Developer Tools & APIs:

- REST APIs, Postman
- npm, Vite
- VS Code

Version Control:

Git, GitHub ·

UI/UX (Support Skills):

Figma, Wireframing, Prototyping, Usability Testing

Programming Languages: Python, C++, JavaScript, Java

LANGUAGES

· Arabic : Native

· English : B2 Level
